

AI SOC Anomaly Detection & Incident Reporting Audit

1. Threat Detection Benchmark Results

Tested against 20,000 synthetic and historical network logs containing port scans, brute-force attempts, lateral movement, and data exfiltration.

2. Detection Performance Metrics

Threat Category	Precision	Recall	F1-Score	False Positive Rate
Port Scanning	98.2%	99.1%	98.6%	1.8%
Brute Force Login Spikes	96.5%	98.4%	97.4%	3.5%
Data Exfiltration (High Volume)	94.1%	96.8%	95.4%	4.2%
Lateral Movement (Internal SSH)	92.0%	93.5%	92.7%	5.8%
Weighted Average	95.6%	97.2%	96.4%	3.6% (Target < 5%)
